Kia Ora e te Whānau Ō Aorangi,

It has been wonderful to see the smiling faces of children turning up to school everyday. I am frequently greeted with a kind smile and hug which shows the loving nature our students express here at Aorangi. Our numbers this week are continuing to grow with 64% attendance. We certainly look forward to this trend continuing as the children recover.

Over the past month staff have been developing a Relationship Management Plan document. This states the systems Aorangi School will implement in dealing with Positive, productive behaviours and Negative, not so good behaviours and actions.

This document will be sent home next week for Whānau to talk through with your child about the systems and processes that will be in place.

Please sign the agreement form with your child and return to their teacher.

Last week both Juniors and Seniors experienced a 'Whakanoa/blessing of our new Whare Aio – (Peace House) and class learning areas. A special thanks to Koro Wally and Koro Brian for sharing and teaching our students about this significant Kaupapa and it's importance.

I am also very excited to announce the 2022 sponsors for Aorangi school so far this year. Linley Parry – McDonalds Rotorua, Brad and Phill at Hamills Hunting and Fishing, Joe Mcleod at Razor sharp Barbers and Michelle at Chipmunks Rotorua. Your donation towards rewards, vouchers and equipment for our students is much appreciated.

Finally, thank you to all our school community for your support while Aorangi moved to at home learning. It clearly made a huge difference in preventing a larger number of students, staff and whanau contracting the virus. It is pleasing to see and hear all our students and staff recovered well from the Virus and could return to school.

Memoir's from Room 5 "Me and My Kura"

First Day at Kura

As I walked into my class, everyone was staring at me with big bulging eyes and smirks all over their faces.

I was a bit shy when entering the warm and cozy classroom but even though there were some unusual looking faces, they still made me feel welcome.

Madison Mills Room 5

Me and My Kura –

Meeting my friends was a core memory I have when I first started in Year 2.

In 2018, I was on the junior playground, playing by myself until Reagan came along. Yay!, my first friend. Reagan and I became the best of friends. The next year, I met JB, a.k.a Jeremiah Beckham. Us three were the best trio ever.
